Owner/architect/builder has reviewed and approves all aspects of drawing as well as the following: seam locations, sinks, faucet and cook-top position, over hangs and Radius work. All stones are a product of Nature. Variations occur from one piece to another, and as well as within each stone. All procedures will be taken to allow for blending required to meet owner/architect/builder approval prior to fabrication and installation. Absolutely no claims will be accepted for any reason after materials are fabricated.
